

COURSE NAME Equipment Specialist Level 1

CERTIFICATION AGENCY PADI

PROGRAM #LSS.150

MINIMUM AGE 10

COURSE FEE \$75

Don't miss a dive due to a scuba gear issue. Whether it's a blown o-ring, regulator problem, wetsuit tear or a broken fin strap, you can learn how to manage basic scuba equipment repair & adjustments. As a PADI Equipment Specialist, you are prepared for the gear maintenance, care and adjustments you'll encounter everyday. In addition, you'll learn interesting background information about how your gear works, how it's repaired and other information that will help protect your dive equipment investment.

This course is designed to be a non-technical introduction to basic scuba equipment, how it works, why its designed the way it is, and most importantly, how to care for it and guarantee a long & trouble-free life for your expensive gear. We'll cover gear from head to toe, and in between, with lots of history, background, and reasons why some pieces of equipment are more appropriate for your style of diving than others.
