

# NITROX

**COURSE NAME** Enriched Air (Nitrox) Diver

**CERTIFICATION AGENCY** PADI

**PROGRAM** #RST.120

**MINIMUM AGE** 12

**COURSE FEE** \$200

Longer Bottom Times. Shorter Surface Intervals. These are among the many benefits of diving Nitrox – a mixture of nitrogen and oxygen in which the concentration of oxygen is greater than that found in air. You’ve no doubt heard of Nitrox, probably know divers who use it. You also know that using Nitrox safely requires special training and certification.

This course is designed to qualify recreational divers to use enriched air ("nitrox") for no stop recreational diving. The program addresses the use of enriched air with 22 to 40 percent oxygen, with emphasis on enriched air with 32 and 36 percent oxygen.

**Course Name/Certification Offered**

PADI Enriched Air Diver

**Administrative Forms**

- IVS Model Release
- PADI Liability Release & Assumption of Risk Agreement for EANx Diving

**Library Items Available?**

- PADI Enriched Air Diver DVD

**Student Prerequisite(s)**

Open Water Diver or Equivalent

**Class Start Dates**

Consult IVS website for more information.

**Class Session(s)**

1 [4 hours]

**Required Student Materials**

- PADI Enriched Air Diver Manual
- PADI Nitrox Dive Tables 32%
- PADI Nitrox Dive Tables 36%
- DSAT Equivalent Air Depth Table

**eLearning Available**

Yes

**Confined Water Sessions**

N / A

**Open Water Dives**

Optional

**Breathing Gas(es)**

**Primary** Air, EAN to 40%,

**Recommended Student Materials**

- Nitrox Compatible Dive Computer
- EANx Analyzer
