

COURSE NAME Tec 45

CERTIFICATION AGENCY PADI
TDI*
IANTD*

PROGRAM #TEC.200
COURSE FEE \$750

MINIMUM AGE 18

As recreational divers planned decompression diving is not something that we practice or for that matter have been taught. The Tec 45 course prepares you for planned staged decompression diving. With a maximum operating depth of 45m/150 feet, this course is your first step that takes you beyond the diving limits of recreational diving.

In the Tec 45 course you will learn how to use new skills and equipment to dive safely beyond recreational limits to a maximum depth of 45 meters/150 feet. You will also be executing a decompression dive with one cylinder of nitrox/enriched air to either accelerate your safety stop or add conservatism to your decompression hang.

Course Name/Certification Offered

PADI Tec 45
TDI Decompression Procedures*
IANTD Advanced EANx Diver*

Student Prerequisite(s)

PADI Tec 40 or Equiv
50 Logged Dives (18 Deeper than 100')

Classroom Session (s)

3 [4 hours]

Confined Water Session

1

Open Water Dives

3 [1 Decompression]

Breathing Gas(es)

Primary Air, EAN to 40%,
Deco EAN to 50%

Administrative Forms

- IVS Required Equipment List for Technical Diving Courses
- IVS Medical Statement & Divers Medical Questionnaire signed by Physician
- PADI Liability Release & Assumption of Risk Agreement for Technical Diving
- PADI Standard Safe Diving Practices Statement of Understanding for Technical Diving
- IVS Model Release

Required Student Materials

- Technical Diving Equipment Setup
- PADI Tec Deep Crew Pack
- Multi-Gas Decompression Computer

Recommended Student Materials

- Tao of Survival Underwater
- Backup Multi-Gas Dive Computer

Library Items Available?

- PADI Equipment Setup & Key Skills DVD
- UTD Intro To Tech DVD
