

## Course Overview

# Public Safety Diver Level II Underwater Communications Specialist Program #PSD.004

The Public Safety Diver Underwater Communications program addresses the needs for effective communication between diver to diver, surface to diver, and diver to surface. Candidates will learn standard procedures, skills and knowledge to communicate underwater using different techniques, lights, lines, hands, touch, and slates. This will standardize the signals being used by public safety divers to communicate underwater, minimizing confusion and misunderstanding. Hardwire communication equipment will also be reviewed, and divers will learn the proper voice techniques for diver to diver and diver to surface communications.

### Agency Certification
