

## Course Overview

# Project AWARE

### Program #RST.016

The Project AWARE Specialty program is designed to familiarize divers and non-divers with the plight of worldwide aquatic ecosystems. It also describes what individuals can do to help protect aquatic resources.

In this course, we'll learn about aquatic ecosystems worldwide, global degradation of the fragile structure, and the current conservation measures protecting aquatic resources. This includes:

- The Project AWARE philosophy
- The importance and interdependence of worldwide aquatic ecosystems
- Current issues regarding fisheries, coastal zone management and marine pollution
- The status of several critically degraded marine environments
- An overview of many of the leading conservation agencies working to protect and restore aquatic resources
- How you can help and inspire others to do the same
- The Project AWARE Specialty course certification counts as one of five Specialty certifications required for your Master Scuba Diver certification.
