

COURSE NAME Hydrostatic Inspector

CERTIFICATION AGENCY N / A

PROGRAM #LSS.276

MINIMUM AGE 18

COURSE FEE \$200

This unique program consists of two parts. First, the DOT requires any employee who handles, tests or transports hazardous waste materials (which includes pressurized vessels and tanks) to be properly trained in their handling, use and labeling.

The second part is specific to the testing of scuba and related cylinders, and certification is specific to the employer. That means that you cannot get certified one at one location then use that at another. However, it qualifies you to perform cylinder requalifications testing here at Indian Valley Scuba, and is an interesting program all around that will teach you the ins and outs of the Hydrostatic inspection process.

Course Name/Certification Offered

IVS Hydrostatic Tank Inspector

Student Prerequisite(s)

Visual Cylinder Inspector

Classroom Session (s)

1 [8 hours]

Confined Water Session

N / A

Open Water Dives

N / A
