

**COURSE NAME Discover Technical Diving**

**CERTIFICATION AGENCY** N / A

**PROGRAM #**TEC.000

**MINIMUM AGE** 18

**COURSE FEE** \$79

Have you ever wondered what it's like to dive in double tanks or a sidemount configuration? If you want to find out but aren't quite ready to take the plunge into technical dive training, Discover Tec Diving will let you try technical dive equipment in a controlled environment to see if you like it. These experience programs are conducted under the direct supervision of a technical dive instructor who will not only get you comfortable in the gear but will also be available to answer your questions about your future as a technical diver.

While not an actual scuba certification program, during the Discover Scuba Diving experience you'll learn how to use basic technical equipment in shallow water and get a quick and easy introduction to what it takes to explore the underwater world as a technical diver.

**Course Name/Certification Offered**

N/A
