

Refresher Classes

Every diver needs to stay on top of their skills and training to be comfortable, safe & confident in the water. Certified divers who have not been diving in a while can participate in this Scuba Review program and work with an IVS instructor to review academic material, dive knowledge, and confined water skills. An optional open water dive may be included.

Our Scuba Refresher Course is a great way to brush up on your diving knowledge and skills. Life is busy, and most of us don't get to dive often enough to keep our skills sharp and our confidence high. This course is highly recommended if you've not been diving for a few months or longer, and are a planning a diving vacation. Scuba Review is for certified divers only. You must provide proof of prior certification.

It is our philosophy at Indian Valley Scuba that confident and competent divers make the safest divers, and we want to do whatever we can to help make everyone's diving experience as enjoyable as possible. We offer our Scuba Refresher Course to anyone that wishes to brush up on their skills or diving knowledge. Regardless of where you completed your prior certifications, all divers are welcomed into the Indian Valley Scuba family.

Our Scuba Refresher Course includes:

One class sessions to review knowledge, dive planning, and the dive tables
One pool sessions to review all basic diving skills and check out equipment
The option of joining the IVS crew on one or more of our scheduled open water dives

Course Options & Fees:

Complete Scuba Tune-up & Skills Refresher – Our best value to help ensure safe & fun diving, this all inclusive program includes an academic review of the materials included in the PADI Scuba Tune-Up manual (manual not included), use of a complete set of gear, classroom & pool session with an IVS Professional, academic review, safety & skills review and practice time.

Skills Refresher Only – For divers who only want to brush up on their in-water skills, this program includes pool use, tanks & weights, one-on-one review & counseling with an IVS Professional, and practice time. Equipment not included – rental available.

Minimum requirements for this course are prior certification by an internationally recognized agency, good health, swimming ability, signed medical statement & waiver form.
